

CLINIC OS

Next-Gen Care Delivery

Clinic Management System

Project Proposal Presentation

Prepared for the Client

1. What We're Building

Web-Based System

A single integrated system replacing outdated manual registers.

Patient Registration

Seamless patient onboarding and advanced search capabilities.

Token Generation

Efficient doctor slip and digital queue token generation.

Billing & Receipts

Integrated billing for Lab, X-Ray, ECG, ECO, and Ultrasound.

Operation Theater

Streamlined room booking and comprehensive final billing.

Management Portal

Real-time tracking of cash, clinical performance, and expenses.

Direct Management

Easy configuration of doctors, tests, and standard pricing.

Secure Logins

Role-based access security for staff and management.

2. Work & Cost Breakdown

Total Fixed Price

PKR 60,000

Total Work Hours

300 hrs

Key Modules Included

- ✓ Patient & Doctor Registration
- ✓ Billing Counters (Lab, X-Ray, ECG, etc.)
- ✓ Operation Theater Module
- ✓ Expenses, Salaries & Reports
- ✓ Testing, Optimization & Training

3. Accelerated 2-Week Timeline

Delivery Speed

14 Days

Extremely fast-tracked delivery compared to typical 10-12 weeks.

Requires active parallel work by 3-4 developers and prompt client feedback.

Days 1-2

Setup, UI design & Patient Reg.

Days 3-5

Doctor Reg & all 5 Billing Counters

Days 6-9

OT module, Test management & Expenses

Days 10-12

Dashboard, Optimization & Full Testing

Days 13-14

Fixes, Training, and Handover

4. Payment Schedule

Total Project Cost

PKR 60,000

Payment Structure

Milestone-Based

Payments are structured around key deliverables to ensure rapid and transparent project progress.

30%

1. Advance (Kick-off)

PKR 18,000

40%

2. Mid-project (Day 7) - PKR 24,000

🕒 Milestone: Patient Reg, Doctor slip, Billing working.

30%

3. Final Payment (Day 14) - PKR 18,000

🕒 Milestone: Completion, testing, handover & training.

5. Scope Clarifications

INCLUDED IN PROJECT

Fully built & tested system

Complete software delivery representing 300 hours of development.

1 Month free maintenance

Post-deployment support including quick bug fixes & stability updates.

Staff training & user guide

Hands-on guidance for operators and complete documentation.

EXCLUDED / ADDITIONAL

Cloud server, domain & SSL

Hosting infrastructure setups are provided and paid directly by client.

Deployment charges

Final deployment setup and server configuration are billed separately.

New features after sign-off

Post-agreement scope changes (e.g., SMS alerts, dedicated mobile app).

6. Before We Start

Required Confirmations

Payment Methods

Cash only or Card/Bank?

Printer Type for Receipts

Small receipt printer or standard A4?

Cloud Server Details

Required credentials/details for deployment and testing.

System Setup Note

Direct Registration

Management registers real data (doctors and prices) inside the system directly.

No need to prepare lists in advance
